Other Things to Know About You

50-YARD DASH

In less than 50 words, tell us why you want to be part of Camp Firebelly. Don't just say "to change the world", that's a given. What are you hoping for? Why should we pick you?

SHOW + TELL

We wanna see what you've got! Your best work please and only 5 pieces. Please send a PDF under 5mbs or a link to your online portfolio. Please make sure this is included with your application.

NICE TO MEET YOU!

We want to get to know you. Please create a video of no more than 60 seconds introducing yourself to the Camp Firebelly counselors. Upload it to YouTube or Vimeo and include a link in your application. If you make it private, be sure to include the password.

SCHOLARSHIP

With only 2 scholarship spots out of the 10 openings, the number of applicants to openings is often so competitive we find ourselves having to cut people who would normally have made it in had they been able to scarp up the cash. We understand that for many, this is a big expense, however we truly want you to consider how badly you want to come vs the cost. It may seem like a lot of money now, but pretty much every camper comes away with an experience, network and opportunities they would never have had without it. But don't take it from us - here's what they had to say themselves:

“

My time at Camp Firebelly was one of the most amazing experiences of my life. It opened my eyes to the power and influence that design can have, and how this can be used to do good and change lives for the better. As well as meet some awesome people who have definitely inspired me. –Arjun

Camp was a great time all around. Meeting people inside (and outside) of the design community through Firebelly was a great opportunity. It was one of the best ways I could think of to get thrust into the world of design, both in terms of networking and working on projects in constant crunchtime. –Raph

Wow: what can't I say about the experience? Honestly I would not be where I am today if it were not for camp. It not only jump-started my creativity after having been laid off from my very first job, but it changed the course of my career. I gained valuable experience, learned a ton about designing and coding for web, found my passion for putting my skills towards charitable causes, met a lot of fantastic people that I still consider my friends, and ended up moving to Chicago because of it. I will always be grateful for the wonderful experience. –Lorraine

If you are applying for one of the two scholarships, please add in an additional 30 seconds to your application video explaining why you are in dire straights and cannot afford to come. And please don't give us the old 'student loans' line --- we've all had them and many of us still do... they are not reason enough.
